- If you're searching "Citations and Abstracts", try the same search in "Article text".
- If you're searching *Current (years)*, try the same search against the *Backfile* or vice-versa.
- If you're searching only one or two collections, use [Change Collection](#) to add another or search ALL available collections.
- Remove any limit to Full text articles or Peer reviewed.
- If you're using [Basic](#) or [Guided Search](#), don't enter a question or long sentence. Instead, use the AND operator to link important words of the sentence together. For example, instead of *What is the largest continent on Earth?*, search for *largest AND continent AND earth*.
- Use [Natural Language Search](#) to enter a question in everyday English.
- Use the [Topic Search](#) to find articles relevant to what you are looking for.
